

The Daily New Mexican

By NEW MEXICAN PRINTING CO.

TERMS: Daily per year \$10.00 Weekly per year \$3.00 Six months \$5.00 Three months \$2.50 One month \$1.00

For first six insertions, 10 cents per line; for subsequent insertions, 5 cents per line. For each time after 10 days, 25 cents per line. Rates for standing advertisements made known on application.

All communications intended for publication must be accompanied by the writer's name and address, and must be paid for as an evidence of good faith, and should be addressed to the editor. Letters pertaining to business should be addressed to the New Mexican Printing Co., Santa Fe, N. M.

Entered as second class matter at the Santa Fe Post Office. The New Mexican is sent to every office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

CITY SUBSCRIBERS.

Mr. C. H. Greig has sole charge of the city circulation of the New Mexican, and all subscriptions must be paid to him or to this office. Subscribers will confer a favor by reporting to this office all cases of non-delivery of papers.

FRIDAY, JANUARY 4.

The bill changing practice in the supreme court passed both houses with a rush.

Three locations for the agricultural college are being determined, Albuquerque, Socorro and Las Cruces.

Col. Albert J. Fountain, from all indications, will make an excellent presiding officer and an enviable record during the session.

Harmony amongst the prominent Republicans of New Mexico will secure federal appointments for residents and bona fide citizens of New Mexico.

Hon. H. H. Eddy, of Colorado, well and favorably known in New Mexico, is the present speaker of the house of representatives of the Colorado legislature.

Col. Eugene Van Patten, who has been sheriff of his county, namely Dona Ana, and has held other offices of honor and trust, is a candidate for warden of the penitentiary.

Hon. Pedro T. Jaramillo, member of the council from Rio Arriba county, is in favor of the enactment of a good strong school law. He will support any good measure in that line.

Hon. Leandro Sanchez, of San Miguel county, a gentleman well known throughout the territory, and who has a good many friends who will help him, is, we understand, a candidate for United States Pueblo Indian agent at Santa Fe.

The reports of the several territorial officials, namely the auditor, treasurer, adjutant general, librarian and secretary of the bureau of immigration should be printed and be distributed throughout the territory for the information of the people. It is well to have citizens posted upon public affairs.

During the session of the legislature the New Mexican will publish full proceedings, and deserves a large circulation throughout New Mexico.—Albuquerque Citizen.

Thanks. The New Mexican is furnishing a full and fair report of all legislative proceedings. Its circulation is increasing and it is wagging along in fine shape.

The different counties are urged to hold meetings and elect delegates to a territorial convention to meet in Santa Fe for the purpose of asking congress to admit New Mexico to statehood. It is suggested that such convention be held at Santa Fe on the 12th inst. This city should be represented.—Albuquerque Citizen.

Go right ahead. The statehood question needs constant pushing and hard work.

Hon. Pedro Perea kept his word promptly. Before the election he assured the coal miners of Bernalillo county that he would make it his business to see, if elected, to have the law authorizing the employment of territorial convicts in mining coal repealed. The legislature has been in session but four days, and an act has already been passed by both houses repealing the law, and only awaits the governor's signature.

A prominent citizen of Lincoln county addresses the New Mexican as follows as to needed legislation and the New Mexican's fight for good and beneficial legislation.

To the coming legislature: Straighten out county lines. Enact a good school law. Reduce the salaries of clerks and district attorney fees. Make specific appropriations for all purposes. Enact a fair and good election law. Curtail the powers of the board of county commissioners. Enact a good poor law. Reduce the cost of county expenses. From the New Mexican of the 27th ult., and very good as far as you have gone, but please continue and make the assessor a salaried office and require him to make up his own bills; in other words, do his own work, instead of turning it over to the county clerk, putting the county to an extra expense of about \$1,000 or \$1,200 on his account as has been done in our county for the past few years. Also, require tax payers to go to the collector and pay their taxes, and reduce his collector's fees accordingly, allowing what is right as custodian of the funds while passing through his hands.

It is encouraging to note your position, accompanied by the energy you display in advocating the cause of economy. It helps us with non-residents who are seeking investments, as well as with those who have already done so. Should our county expenses increase in the next two years as they have for the past two, brought about largely by the excessive fees allowed our office holders, it can but result in great injury to the territory through the increase of taxation that must follow. So, please keep up the fight; it is right and you must win.

Try the New Mexican's new outfit of material and machinery when you want fine job printing or blank book work.

LOGAN H. ROOTS AND THE CABINET.

The Memphis Appeal, a representative southern paper, Democratic in politics, strongly favors Hon. Logan H. Roots, of Arkansas, for a position in Gen. Harrison's cabinet. Col. Roots would make an excellent secretary of the interior, and would be acceptable to the people of both the south and the west. The Appeal says:

The St. Louis Globe-Democrat presents a cabinet Christmas tree with some southern possibilities, but the only really southern prospective cabinet member placed in this picture is Logan H. Roots, of Little Rock. He has always been a pronounced Republican, and was elected a delegate to the Chicago convention by acclamation. While we don't approve of his politics, truth compels us to admit that he is a broad gauge business man of acknowledged integrity, who for a quarter of a century has been engaged in the promotion of the best interests of the south, those of his own state especially. He has such large investments in the south that he works in this direction with a will. He has in this way earned the confidence of our people, and very properly and justly has been placed by them in the lead in many important enterprises. He is now president of the Arkansas State Bureau of Immigration, having been unanimously chosen to that position by a convention of four-fifths of the state of Arkansas. Mr. Roots is prominently mentioned for the cabinet, as it is not probable that there is another Republican anywhere in the south of equal ability, with more inclination to give his voice for the best interests of the south. He is a man of experience in politics, but has never been an extra m. s., nor has he ever been identified with the element in the Republican party that has made itself odious for encouraging the race difficulties and inviting the pressure of the Republican majorities in congress. Mr. Root's presence in the cabinet would be a reassuring sign to the south, and would be accepted as an earnest on the part of President-elect Harrison that he really intended to be the friend of the whole Union, and not of a section or party.

NEEDED LEGISLATION. A GOOD IDEA.

The laws of this territory require that a man shall be a property holder before he is eligible to sit on the petit grand jury. They should be amended in the incoming legislature so as to make it impossible for a man to hold a precinct or county office, until he becomes a freeholder. This will put a stop to men holding office and handling the people's money, who have no interest in the country, who are here to-day and gone to-morrow. We hope our law-makers will take action in the matter.—N. W. New Mexican.

COURT CLERKS FOR EACH COUNTY.

The legislature should either make the clerks of the probate courts in the several counties clerks of the district courts in their respective counties or create the office of clerk of the district court in each county. Litigants ought not to be compelled to go into another county to hunt for their court records or transact any court business. New Mexico is the only territory where this condition of affairs exists. The Times believes in home rule. If this change is beyond the power of the legislature, congress should be called upon to make it.—Socorro Times.

A GOOD SCHOOL LAW NEEDED.

A good school law is the principal demand the people of the territory make upon the legislature. If a better school system is not adopted it is useless to ask congress to admit New Mexico to statehood.—Albuquerque Citizen.

MAKE COUNTY ATTORNEYS.

The office of county attorney should be established. The work of all the counties in a district is too much for one man, and the result is that much is neglected. County officers should have competent counsel at all times, and this they can not have when a district attorney's time is divided up between three or four counties.—Socorro Times.

THE SCHOOL QUESTION.

We cordially indorse the New Mexican, the Enterprise and other papers which advise the coming legislature to make the teaching of English in the public schools of the territory compulsory. The children of Mexican parents are entitled to be equipped for the contests of after life. They are citizens of the United States, and in the very near future the dominant character of the English language will force its way to prevalence throughout the territory. The teaching of the Spanish instead of the English is not a mark of patriotism. The children are thoroughly American in allegiance and desire, and it is no more a mark of good sense and persistence than the example of the old lady who tried to sweep back the sea with a broom.—Silver City Sentinel.

A SECRET BALLOT.

New Mexico wants a law that will insure a secret ballot, and political workers should not be allowed to interfere with voters within twenty-five feet of the polls.—San Marcial Reporter.

AN IMPORTANT QUESTION.

One of the most important questions that can come before the legislature is that of the public schools, and every effort should be made to put the public school system on a thoroughly sound basis. And in connection with this it ought to be arranged that the English language shall be taught in every one of our public schools.—Mesilla Valley Democrat.

COUNTY TREASURERS.

Upon our present law the county treasurer gets a salary of \$200 per annum, payable in depreciated county warrants. In this county he gives a bond in the sum of \$50,000, and the labor is not by any means trifling. A salary so entirely inadequate to the responsibility assumed, is an invitation to speculate in county funds, it involves the implied suggestion that the office is not expected to look to his salary for compensation, but to the profits to be indirectly derived from the custody of public moneys.

The treasurer should be paid a salary commensurate with his responsibilities and his labor. The present law offers a premium to dishonesty.—Silver City Sentinel.

AGAINST THE BIG FOUR.

The legislature of New Mexico will be asked to pass a law requiring all fresh meat sold or used in this territory to be inspected on the hoof in this territory before it is slaughtered. By such a law it is expected to put a stop to the shipping and selling of meat from animals slaughtered in Kansas City, or any other place. No one here knows what germs of disease may be carried in the nice looking beef that is brought in Armour boxes.—Springer Stockman.

Are We to Have Another War?

Some political prophets aver that we shall be that as we may, the battle waged by medical science against disease will never cease until we arrive at that utopian epoch when the human family shall cease to be afflicted with bodily ailments. One of the most potent weapons which the armory of medicine furnishes is Hostetter's Stomach Bitters, which is of special utility as a family remedy, as it is adapted to the immediate relief and ultimate cure of those disorders of the stomach and bowels which are of common occurrence. Indigestion, biliousness and constipation are inseparable companions, and these ailments are complicated and aggravated by the remedial measures of the unskillful. Hostetter's Stomach Bitters is also a powerful purgative, and its action is gentle and its effects are permanent. It is a remedy of the highest character, and its use is recommended by the most distinguished physicians of the world.

THEIR BUSINESS BOOMING.

Probably no one thing has caused such a general revival of trade at C. M. Creamer's drug store as their giving away free trial bottles of Dr. King's New Discovery for Consumption. Their trade is strongly increasing in this very valuable article, from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Model Way of Curing a Cold.

A. A. Averill writes from Salem, Essex Co., Mass., Feb. 11, 1886: "About ten days ago I took a severe cold, which settled in my chest and back and caused me much suffering. I immediately procured three Alcock's Porous Plasters; two I applied to my chest and one to my back. In a few hours my pains sensibly abated, and in three days I was entirely well. I take great pleasure in recommending Alcock's Plasters."
